

# Chlorophyll

There is a saying that goes "Green Inside, Clean Inside."

Chlorophyll, the green matter in plants, is found abundantly in nature. Through the process of photosynthesis, chlorophyll harnesses the sun's energy in order to perform various metabolic functions. When humans and other animals eat plant chlorophyll, they also benefit from this energy. Scientists have discovered that chlorophyll is molecularly very similar to the red pigment in the human blood cell.

In fact, the only difference is that the human red pigment has a central atom of iron, while the plant green pigment (chlorophyll) has magnesium as the central atom. This discovery has led to the use of chlorophyll as a health-enhancing nutritional substance with many benefits.

Gentle, refreshing and full of goodness – make NSP's Chlorophyll part of your daily nutritional program and experience the benefits of Nature's Green Sunshine.

## Did you know?

Chlorophyll has been called "Liquid Sunshine" because it absorbs energy from the sun. Out of a number of known plants, 260,000 are classified as higher plants, which means they contain chlorophyll and perform a process called photosynthesis. In photosynthesis, plants utilize the energy provided by sunlight to manufacture carbohydrates from carbon dioxide and water. All the members of the higher plant group have the potential to offer health benefits. Only 10 percent, however, have actually been studied for this purpose.

## Features and Benefits

### Defends Against Free Radicals and Toxins

- Hydration and Cleansing
- Revitalizes Vascular System
- Enhances Digestion and Energy
- Brightens Complexion

## NSP Advantage

A solution supplying 15 mg (per teaspoon - 5 mL) of pure, water-soluble chlorophyllins derived from alfalfa, delicately flavoured with natural spearmint oil.

Ingredients: Purified water, sodium copper chlorophyllin, methylparaben, propylparaben, and spearmint oil. Recommendation: Adults and children take one teaspoon (5 ml) in a glass (250 ml/8 oz.) of water twice daily.

Chlorophyll Capsules: For those few who don't like the taste of chlorophyll or spearmint, Chlorophyll is also available in a bottle of 60 softgel capsules. Each capsule contains 50 mg of sodium copper chlorophyllin complex in soybean oil. Other ingredients: gelatin capsule (gelatin, water, glycerin) - one or two capsules daily with a meal

## Expanded Benefits:

Builds a High Blood Count	Provides Iron to Organs
Counteracts Toxins Eaten	Improves Anemic Conditions
Cleans and deodorizes Bowel Tissues	Helps Purify the Liver
Aids Hepatitis	Feeds Heart Tissues Iron
Regulates Menstruation	Aids Hemophilia Condition
Improves Blood Sugar Problems (diabetes)	Aid in Asthma Improvement
Increases Iron Content in Milk	Improves Milk Production
Helps Sores Heal Faster	Eliminates Body Odors
Resists Bacteria in Wounds	Cleans Tooth and Gum Structure in Pyorrhea
Improves Nasal Drainage	Slows Nasal Drip
Lessens need for Underarm Deodorizers	Eliminates Bad Breath
Relieves Sore Throat	Makes Excellent Tooth Surgery Gargle
Benefits Inflamed Tonsils	Soothes Ulcer Tissues
Soothes Painful Hemorrhoids and Piles	Aids Catarrhal Discharges
Revitalizes Vascular System in the Legs	Aids digestive and intestinal disorders
Boosts immune system	Antioxidant properties
Provides increased energy
